ABOUT ME

Currently working as a Cybersecurity Pentester in a Tunisian company, with professional experience including web application pentesting and technical security audits (including for ANCS – Tunisia).

Holder of a Bachelor's degree in Information and communication technology specialized in Network Security with strong foundations in development and networking .

Passionate about offensive security, I stay sharp by being active on Hack The Box, CTFs, and YesWeHack (bug bounty). Currently preparing for eWPTx certification, with a strong commitment to continuous learning and staying ahead of emerging threats.

INTERNSHIPS

• 2024-2025

OffensyLAB

FINAL YEAR PROJECT

- Developed a centralized GRC (Governance, Risk, Compliance) platform to enhance security and compliance management.
- Designed and implemented modules for organizational context, HR management, ISMS, and audit management.
- Utilized technologies: Node.js, MySQL, Visual Studio Code, Docker, RESTful APIs.

• 2023-2024

OffensyLAB

STUDIES PROJECT

- Built web app automating AD penetration testing workflows based on Orange Cyberdefense mindmap (Python/Flask backend, React JS frontend).
- Implemented automated checks for misconfigurations, privilege escalation paths, and common attack techniques.
- Added reconnaissance, enumeration, and reporting modules for efficient red team operations.

• 2023 - 2024

DefensyLAB

TECHNICIAN INTERNSHIP

- Conducted manual penetration testing on web applications, identifying and exploiting common vulnerabilities including **XSS**, **HTTP Parameter Pollution**, and **OWASP Top 10** .
- Developed foundational skills in **web pentesting methodologies** .

• 2022-2023

Tunisie Telecom

INITIATION INTERNSHIP

- Explore the professional realm
- Explore the GSM infrastructure

EDUCATION

• 2025-2028

CYBERSECURITY ENGINEER

- Engineering degree in Security of Computer Systems and Networks

• 2022-2025

NETWORK SECURITY TECHNICIAN

- Licence degree in network security

• 2022

HIGH SCHOOL OF HABIB BOURGUIBA , DAHMANI , EL KEF , TUNISIA

- baccalaureate degree in science of technology

EXPERIENCE

- Cyber security Pentester at **DefensyLab Tunisia** .
- **Tech Team Leader** | Engineers Spark ISETCOM Tunis | 2023–2024
- **CTF Competitor** | HTB | 2024–Present

CERTIFICATIONS

- CCNA 1
- eWPT
- eJPT
- eWPTX

SKILLS

- Web Application Security OWASP Top 10 .
- Mastering web pentest tools such as Burp Suite, SQLMap , ffuf , XSSStrike
- Reverse engineering & Binary exploitation (Ghidra, gdb)
- Basics of active directory pentesting .
- Networking .
- Vulnerability assesement (using tools such as Nessus , openvas , nipper , prowlser) .
- Technical Auditing .
- Python / javascript frameworks (express , react , next.js) .
- Assembly
